## APPLICATION FOR PERMIT

## TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

OCT 2 7 19// Date of filing in State Engineer's Office
Returned to applicant for correction
Corrected application filed
Map filed 0CT 2 7 1977 under 34427
The applicant Sunoco Energy Development Company
12700 Park Central Pl., Box 9, Suite 1500 of Dallas Street and No. or P.O. Box No.
Texas 75251 , hereby make application for permission to appropriate the public
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion; if a copartnership or association, give names of members.) Incorporated January 2, 1975
in the State of Delaware
1. The source of the proposed appropriation is Underground Well No. 9  Name of stream, lake or other source.
2. The amount of water applied for is 3.25 second-feet  One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feetacre-feet
3. The water to be used for Industrial  Irrigation, power, mining, manufacturing, domestic, or other use.
4. If use is for:
(a) Irrigation (state number of acres to be irrigated)
(b) Stockwater (state number and kinds of animals to be watered)
(c) Other use (describe fully under "No. 12. Remarks")
(d) Power:
(1) Horsepower developed
(2) Point of return of water to stream
5. The water is to be diverted from its source at the following point: NE \ SE \ Section 35, T.35N
R.23E., M.D.B. & M., or at a point from which the East ½ corner of said  Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,  Section 35 bears N 45 40' E 820,00 feet  it should be stated.
6. Place of use Sections 1,2,3,10,11,12, NW NW Section 13, N/2 N/2 Sec. 14,  Describe by legal subdivision, if on unsurveyed land it should be so stated.
N½ N½ Sec. 15, T.34N., R.23E., M.D.B. & M., W½ Sec. 5, Sections 6 & 7, W½ Sec. 8, T.34N., R.24E., M.D.B. & M., Sections 13,14,22,23,24,25,26,27,34,35 and 36, T.35N., R.23E., M.D.B. & M., Sections 18, 19,30,31,W½ Sec. 17, W½ Sec. 20, W½ Sec. 29 and W½ Sec. 32, T.35N., R.24E., M.D.B. & M.
7. Use will begin about January 1 and end about December 31 pay and Month Day and Month  8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Drill well to approximately 6000 feet,
install casing and cement back to surface to protect fresh water zones.  State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.  Hot water or steam will flow through pipeline to electric plant.

9. Estimated cost of works \$500,000.00	
10. Estimated time required to construct works 2 years	
11. Estimated time required to complete the application to beneficial use5.	years
12. Remarks: For use other than irrigation or stock watering, state number and consumptive use.	type of units to be served or annual
is application is for a geothermal well with a proper day. The withdrawal will be 2352 acre feet apperature water would be flashed with the net effort being beneficially used and the remaining water by 235 acre feet per year is actually used. This thought other applications. The total hot water-steam neficial use is 3300 acre feet per year from all	et per year; however, the help fect of 210,000 gallons per returned to the reservoir application is comingled application is comingled application is comingled application.
Applicant SUNOCO Energy Development Company	
APPROVAL OF STATE ENGIN	NEER
This is to certify that I have examined the foregoing application, and do he following limitations and conditions:	
This permit is issued subject to all existing riunderstood that the amount of water herein granted is and that the final water right obtained under this pethe amount of water actually placed to beneficial use that this right must allow for a reasonable lowering at permittee's well due to other ground water develops suring device must be installed and measurements of wis flowing, a valve must be installed and maintained	only a temporary allowance rmit will be dependent upon . It is also understood of the static water level ment in the area. A mea-vater use kept. If the well
tively withdrawn from the geothermal ground water res through 34443 is limited to 3300 acre-feet of water p This permit is further issued subject to the con-	at least the first 5000 level to the surface to quivalent to be consump- ervoir under Permits 34427 er year. dition that the power or or steam is subject to of Nevada when the need
and all times.  There are to be no perforations in the well for feet. The well is to be cemented from the 5000 foot protect fresh water zones. The total water - steam entively withdrawn from the geothermal ground water rest through 34443 is limited to 3300 acre-feet of water put is further issued subject to the connection energy generated by the beneficial use of this water recapture and use within the boundaries of the State arises.
